

Maths

Children will consolidate their number and place value skills. They will add and subtract up to 2 digit numbers using number lines, partitioning and concrete and pictorial representations. Children will learn to count in 2, 5 and 10's and understand the inverse relationship between addition and subtraction by recalling number bonds to 10, 20 and 100.

English

Our book this term is a non-fiction text called '10 Things I Can Do to Help My World'. We will begin by ensuring we are using our phonic knowledge to decode the text and that we are familiar with new vocabulary. We will focus on writing caption sentences using capital letters and full stops. Our big write will be a non-chronological report. In our grammar sessions, we will look at sentence types and conjunctions. The children will continue taking part in RWI Phonics/Guided Reading sessions.

R.E

The overarching theme for the year is Baptism. This term, we will learn about the story of Noah, focusing on God's promise, or covenant, with Noah and with all creatures that 'nothing of flesh shall be swept away again by the waters of the flood' (Gen 9:15), a promise symbolised by the rainbow. We will also consider good and choices.

Topic

The children will be drawing maps of our school. They will learn about the equator and identify countries and continents on it. We will then move on to our topic on London and Cairo where we will be learning about and comparing famous landmarks and features of both cities.

Year 2 Curriculum Map

Year 2

Autumn 1

Music

The children will be exploring rhythm, using percussion instruments and learning a variety of songs.

Computing

The children will begin learning some simple coding skills and de-bugging computer programmes. They will also learn how to stay safe when using the internet.

P.E

The children will be working on invasion games. This will involve working in a team, decision making as well as developing hand eye co-ordination.

Science

Our Science topic for this term is Plants. We will be looking at some plants in our local area and labelling different parts of a plant. We will think about how plants grow and what they need. We will also investigate our big question to find out whether a bigger seed germinates faster than a smaller seed!

Art

In Art, we will be creating self-portraits using a variety of techniques and materials. We will look at artwork by Paul Klee and Picasso. We will also be thinking about how making mistakes can create wonderful opportunities for creativity!
